

FTE.2

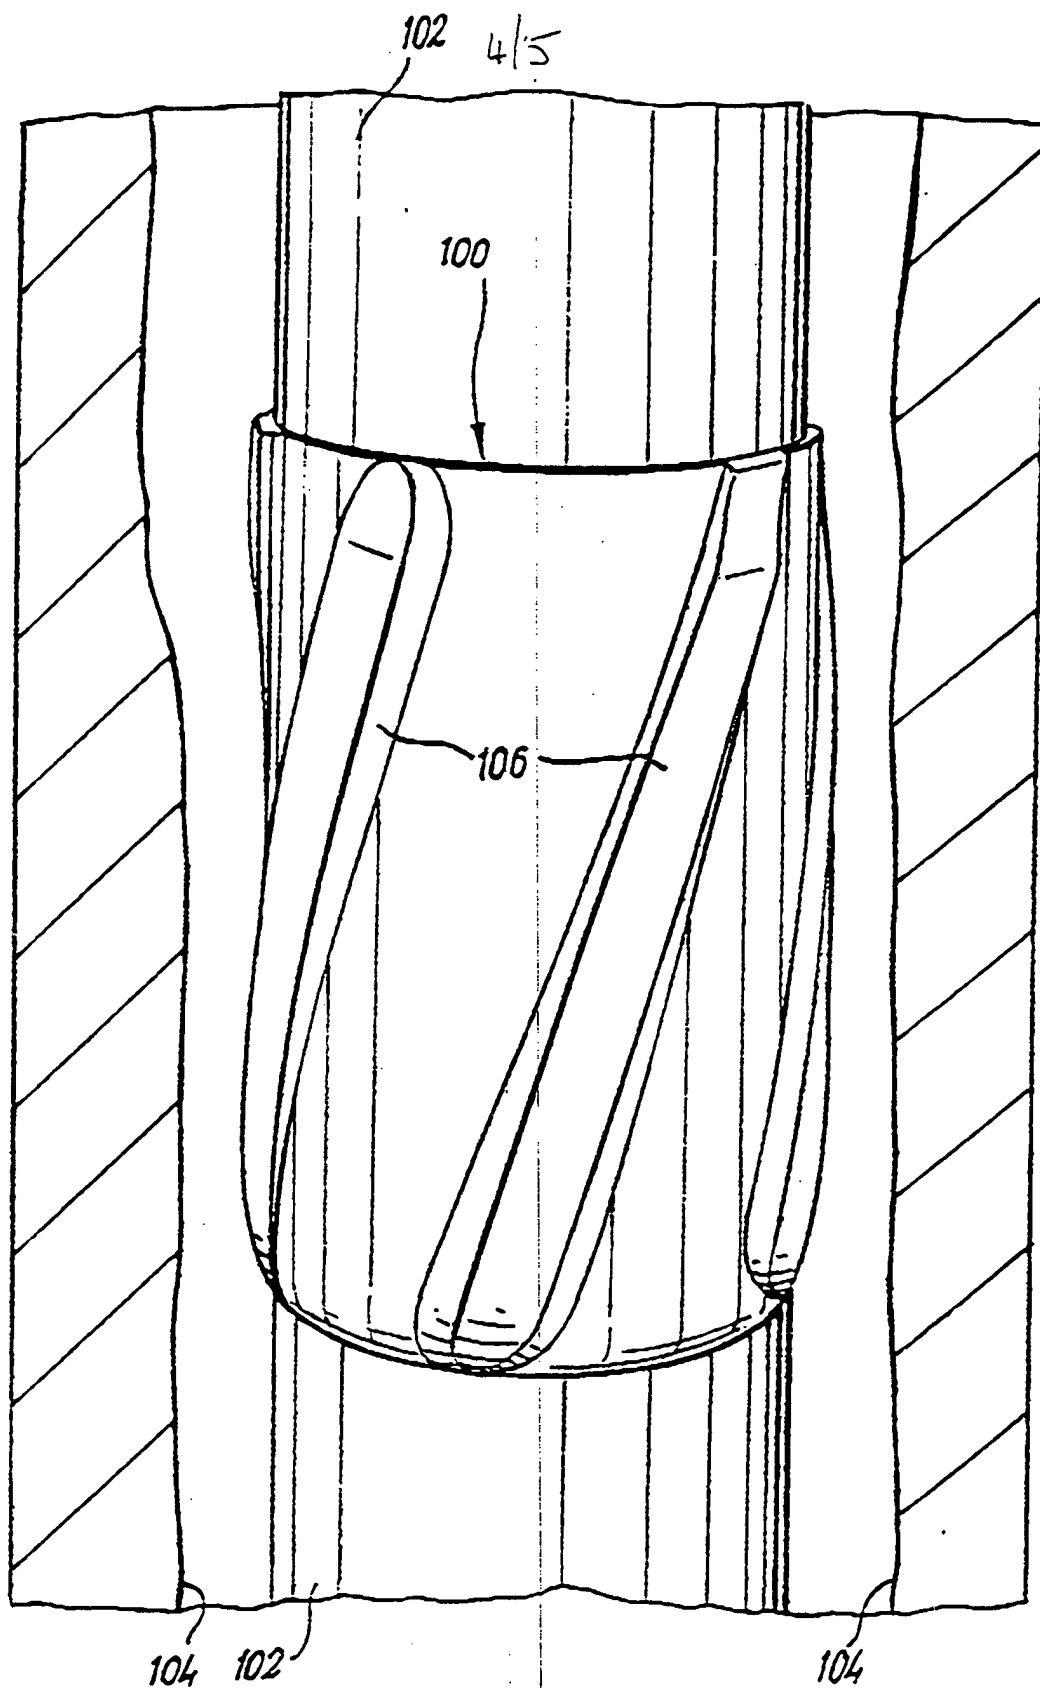

FTE.3

A perspective view of a tapered, elongated member 14, with a vertical line 3/5 passing through its center.

A diagram showing a cross-section of a lens or optical element. The element is elongated vertically and has a curved, convex surface on the left side and a straight, vertical surface on the right side. A horizontal line segment is drawn across the middle of the element. The left end of this segment is labeled with the number 18, and the right end is labeled with the number 20.
